Hi M, Ok I have sent the wire instruction for Monday for \$10,000.  
Lets go with it as a loan, repayable by early January.  
Please confirm safe receipt  
See you during the week

the other thing that would work is a loan - we'd give you the funds back by 12/31 - we just ran way short on this going public thing and they want their money ASAP

Hi M, really fun evening, thanks for making it happen, always good to see the team lets it hair down!

On the \$50k, is this a sunk a cost, or further buy-in to the stock? I'll commit \$10k and wire to you on Monday. Am I doing this on the agreement/wire instructions you just sent?

Will work with Nora to make sure we get time to have more fun next week

Excited to watch RTRX come to life!!!!  
hugs
